

Comprehensive Hospitality Solutions
Accounting for Hospitality

Dining Alliance
— PURCHASE WITH POWER —

CHS promotes faster growth, larger profits, with less effort.

Hospitality is our ONLY industry

Bookkeeping

Organized bookkeeping is critical to the smooth operation of a business. Our accounting firm goes beyond typical bookkeeping services to include constant bank monitoring, management of vendor relations, month end statement review and much more. We provide more so you can focus on the operation of the business.

"CHS is an indispensable part of my business. They bring peace of mind so I can focus on the running of my café."

Phillippe B., Owner • 11th Street Cafe

Tax

We have the expertise to address all of your tax requirements, including those specific to hospitality. From sales tax to annual returns, we prepare and file in all 50 States and US jurisdictions. Combined with bookkeeping and accounting, our integrated approach makes compliance effortless.

Our Differentiation

- Highly experienced staff trained in hospitality.
- Latest virtual technology.
- Services provided nationwide.
- Dashboards to easily manage multiple locations.
- Guidance on managing cash.
- Invoice statement review performed at month end.
- Weekly financial flash reporting.
- We manage your Dining Alliance program for you!

Accounting

Accurate and timely financial reporting allows for informed decision making, enables anticipation of upcoming cash requirements and provides key actionable insights into operations. We update data daily and keep our clients informed through online access of their books, weekly flash reports, consistently updated Accounts Payable and cash reporting along with comprehensive month end analytics. Let our firm elevate your business to its full potential.

"Engaging CHS was one of our best decisions. The CHS team has given us the tools and reporting to support the on going growth of our Company."

Jack M., CEO & Founder • Jack's Stir Brew Coffee

Finance & Strategic Planning

Finance focuses on efficient use of assets, cost control, strategic planning and analytics to identify opportunities. We provide sophisticated financial tools and dashboards to provide management the ability to identify and address everything from global issues to small details. The aim is to facilitate faster growth and larger profits with less effort.

You do the cooking, we do the booking.
