BUYERS EDGE Platform | RESTAURANT TECHNOLOGIES®

Restaurant Technologies' Total Oil Management solution helps deliver consistently exceptional food while creating a safer, cleaner, more productive kitchen. Automated oil handling, scheduled deliveries, waste collection, and real-time reporting simplify operations, reduce waste, and support your team without upfront investment.

Key Benefits

- Safer handling to reduce exposure to hot oil, slips, falls, and burns
- Less cardboard and plastic oil-container waste
- Consistent food quality from regular filtering
- Greater efficiency with automated oil filling, filtering, and disposal
- Better visibility through online reports
- Complete support with comprehensive training and 24/7 service
